

**Labrador Trap & Skeet Club**  
**PO Box 28, Labrador City, Labrador, A2V 2K3**

**Range Operating Instructions: Updated June 21, 2012**

The facilities at the Labrador Trap & Skeet Club encompass 4 different ranges:

- **Skeet Range** is located to the left of the Club house when looking from the road, facing the hill and is approved for shotgun use only. Shooters using the skeet field must use #8 shot or smaller.
- **Trap Range** is located to the rear of the Club house when looking from the road and is approved for shotgun use only. Maximum allowable shot size is # 7 ½.
- **Rifle / Pistol Range** is located to the right of the Club house when looking from the road. It has an attached storage shed and four firing positions with a maximum distance of 100 yards. It is approved for rimfire & centerfire handguns & rifles.
- **Sporting Clays Range** takes in the entire facility starting from the skeet field and extending 300 yards to the right of the Club house when looking from the road and is approved for shotgun use only. Maximum allowable shot size is # 7 ½.

Absolutely no shooting unless a Labrador Trap & Skeet Club designated Range Officer (RO) is present. The RO has complete authority on the range property to conduct authorized shooting practices and matches. The RO has the right to ask for proof of membership. Failure to provide proof of membership will result in the RO removing you from the range.

A Red Range Flag must be flown over the main gate when the range is open.

Additional Red Range Flags must be flown over every active course of fire.

More than one firing range may be used at a time as long as all shooters are made aware.

Yellow Caution Flags must be flown when maintenance is being performed on a course of fire.

No shooting is permitted on a course of fire while the Yellow Caution Flag is flown.

**A Yellow Caution Flag flown at the main gate means NO shooting is permitted on ANY range.**

All members, visitors and guests are required, by law, to sign "In" and "Out" of our log book.

All persons under the age of 16 **must** be accompanied by an adult.

No tracers are permitted on any range. They are an extreme fire hazard in our dry forests.

Eye and Hearing protection is **mandatory** on all ranges.

The consumption of drugs or alcohol is **strictly forbidden** on any range.

Guests and spectators are the responsibility of the member who brought them.

Guests are required to pay non-member rates plus additional range fees. Visiting members from other gun clubs will only pay member rates (with proof of home Club membership).

All members, guests and spectators will obey and enforce all posted safety rules as well as helping to keep the Club house and grounds free from litter, debris or foreign matter.

All shooters will put away mats, cords, stands or accessories used after each shooting session.

All shooters will collect their spent casings or hulls as well as police their shooting area and collect any targets or debris from their targets after each shooting session.

Personal vehicles are not permitted beyond the main gate without prior consent.

All shooters must be in possession of a valid POL / PAL or RPAL license.

All firearms must be carried in a suitable case for transport to our Club.

All restricted firearms must be double locked for transport to our Club.

Unrestricted firearms require no special permits for transport to our Club as long as you are a member or are being accompanied by one.

All restricted firearms must have a valid Authorization To Transport (ATT) license for our Club issued by the Chief Firearms Officer (CFO).

All shooters will **immediately stop shooting**, make safe and step away from the line whenever a "CEASE FIRE" command is given.

Safe firearms handling and behavior is closely monitored at all times.

Firearms on the Rifle / Pistol Range may be cased or uncased only on the firing line.

Shotguns may be cased or uncased inside the Club house in the gun rack area only.

Firearms may be stored in the Club provided gun racks only if they are unloaded and the actions are open.

Firearms with break-open actions may be stored in these racks closed but must be opened immediately upon removal. Always keep your firearm muzzle pointed in a safe direction.

Firearms are to be loaded only when on a firing line or on a station.

No one is permitted forward of the firing line unless directed by the RO and even then only after he / she has inspected all guns to ensure they are unloaded, chambers are open and if so designed, the magazines are removed. No one may touch any firearm, magazine or ammunition until that person (s) has returned and the all clear has been given to resume firing by the RO.

New members must shoot an initiation round of targets and score 10 hits before being allowed on a regular shooting squad for Trap, Skeet or Sporting Clays.

All vandalism, damage or requests for maintenance / repairs must be reported, in writing to the Grounds Supervisor. Proper report forms are available in the Club house.

**Failure to comply with any Club rules may result in permanent expulsion.**

If you have any questions, comments or concerns feel free to contact any member of the Club Executive or any RO. They will be only too glad to help.
